Subject: CFAC Status External messages

If the site is listed it will not be listed on the NPL before Fall of 2016.

CFAC will begin the RI in the spring of 2016. Until a decision is made on listing, CFAC will be conducting the RI/FS pursuant to the AOC.

CFAC has asked that EPA consider implementing the Superfund Alternative approach in lieu of finalizing the site on the NPL. EPA management is considering this request. In the meantime CFAC has agreed to proceed with the RI/FS pursuant to the AOC to define nature and extent of contamination.
